BATTLE BEFORE ARMISTICE

Little Hope for Cessation Of Hostilities Until Manchurian Armies Again Try Conclusions.

OYAMA WOULD LIKE ANOTHER CHANCE

Correspondent at St. Petersburg. Thinks Japan Would be Reluctant to Give up Present Advantages—Russian Paper Declares England is Advising Japan Against Armistice at Present.

St. Petersburg, June 21.—The only hope for an armistice pending the meeting of the peace plenipotentiaries seems to rest with President Roosevelt and even that is considered slender. So far as known the president has not taken a positive step in this direction. The impression here continues strong that Japan only with great reluctance could be induced to forego the advantages of her strategic position which, despite the tone of the official advices from the front, is regarded as being altogether favorable for Field Marshal Oyama, and agree to a suspension of hostilities for at least six weeks during which time thousands of reinforcements would reach Gen. Linevitch and Vladivostok would be strengthened with munitions and supplies to withstand a siege. Indeed, it is suggested that Japan deliberately planned to postpone the meeting long enough to give Oyama a chance to administer to the Russians a fresh defeat on land in order to rob the war party in Russia of their last card and facilitate acquiescence to her terms. Considering the situation therefore, President Roosevelt's triumph will be all the greater if he could now succeed in crowning his work by an agreement which would at least prevent another bloody battle pending the show of hands at Washington.

The Novoye Vremya Monday printed a dispatch from London in which its correspondent declared he was in possession of information to the effect that the British were advising Japan against the conclusion of an armistice. "Russia," the dispatch adds, "is not considered to be sufficiently weakened. Great Britain hopes that Field Marshal Oyama will succeed in destroying Gen. Linevitch's army and thus relieve her of the nightmare that the army may later be shifted to the borders of India."

The radical Nasha Shien asserts that "the phantom of financial exhaustion hanging over Russia" is really the greatest friend of peace and draws a harrowing picture of 90 per cent of the empire's population living as their forefathers did in the sixteenth century, groaning under the adventures of the autocracy which clever bookkeeping no longer can conceal.

"Russia," the Nasha Shien continues, "is reaching the end of her ability to borrow for the purpose of prosecuting the war. Here is the real secret of the hope of peace. Russia's poverty must

THE LOOMIS-BOWEN CASE

Charges Against the Assistant Secretary of State Not Sustained by the Evidence.

CASE HAS BEEN FINALLY SETTLED

Secretary Taft's Report to President Roosevelt to be Made Public at Once—Mr. Bowen Told of the Decision Before Leaving Washington—Will be Dropped From Service.

Washington, June 21.—It can be stated on excellent authority that the Loomis-Bowen case not only has been settled finally, so far as the administration is concerned, but settled in favor of Mr. Loomis. The charges against Mr. Loomis, for which Minister Bowen practically stood are declared to be without sufficient foundation in fact to be worthy of further consideration. Secretary Taft's report to the President which probably will be made public later will show this. Some criticism of Mr. Loomis was made at the meeting of the cabinet but it was not of a nature to reflect in any way upon his integrity.

The charges against Mr. Loomis are discussed fully in the report of Secretary Taft but the report contains no recommendation as to Minister Bowen. The understanding between the president and Secretary Taft was that the secretary should inquire into the charges against Mr. Loomis and that in the end the president himself would dispose of the case so far as relates to Mr. Bowen.

Mr. Bowen will be arraigned for insubordination, criticized for his action in the pending case, and finally, dropped from the diplomatic service of the country. It is expected that President Roosevelt will issue a statement covering the case completely.

Minister Herbert W. Bowen and his brother, Clarence Bowen of New York, where at the White House Tuesday in connection with the Loomis-Bowen case. They saw the president for a brief time but their principal mission was to talk of the case with Secretary Taft who has charge of it since its inception. The secretary was late in arriving at the cabinet meeting but after he reached the executive offices he talked over the matter with them.

As Minister Bowen left the White House, he admitted in response to inquiries that he was aware of the purport of Secretary Taft's report to the president but said he was not at liberty to disclose it. Asked if the report was favorable or unfavorable to him, Minister Bowen replied that the inquiry which had been conducted by Secretary Taft had little bearing on him personally as the investigation had to do with charges against Secretary Loomis.

"President Roosevelt requested Secretary Taft," said Mr. Bowen, "to inquire into the charges brought against Mr. Loomis and to submit a report on the matter to him. That he has done but he has made no recommendation affecting me. As Secretary Taft has told me there is no further need of my presence here, I expect to leave for Orange, N. J."

Lieut. Titus Married.
Colorado Springs, Colo., June 21.—Lieut. Pearl Calvin Titus, U. S. A., who was the first soldier to scale the wall of the city of Peking, China at the time of the relief of the city by the allied forces after the Boxer uprising, and whose home is in this city, was married here Tuesday. He was appointed to West Point by President McKinley for meritorious service and was a member of this year's graduating class at the military academy. His bride was Miss Grace Anna Robinson, of this city.

Norwegian Storking is Firm.
Christiania, Norway, June 21.—The address to King Oscar and the riksdag and the Swedish people generally adopted by the storking Monday in reply to the long letter which the king sent June 13 to the president of the storking, M. Berner, is of a conciliatory character. At the same time, however, it indicates the unalterable determination of the storking to adhere to the action taken in dissolving the union with Sweden.

Rain Continues in Ohio.
Columbus, O., June 21.—The continued rains Tuesday with heavy thunderstorms have flooded many fields throughout central Ohio and reports show that the corn is badly damaged. Wheat in many places is reported to be down and the damage will be considerable. At Spencerville 50 or more oil rigs were blown down and a number of houses and barns were wrecked by the wind and lightning.

Stockholm, Sweden, June 21.—The sessions of both chambers of the riksdag were opened Tuesday. Baron Essex took the chair in the upper house by right of seniority. He announced that Counts Sparre and Lundeberg had been reappointed by the king respectively as president and vice president of the house. There was no undue ex-

WOODMEN AT MILWAUKEE

Head Camp of the Organization Holding Its Fourteenth Biennial Convention in Wisconsin City.

OFFICERS' REPORTS SHOW PROSPERITY

Head Clerk's Report Shows a Membership of Nearly 700,000 and Death Claims Paid During the Past Two Years Amounting to \$12,663,603—To Prohibit Sunday Picnics.

Milwaukee, June 21.—The head camp of the Modern Woodmen of America opened its fourteenth biennial convention at the Davidson theater Tuesday with between 600 and 700 delegates, representing over 11,000 camps and nearly 700,000 members, present. Mayor David S. Rose welcomed the delegates to the city in a hearty speech and presented the keys of the city of the head consul. Responses were made by Head Consul A. R. Talbot for the Modern Woodmen and Head Clerk Charles W. Hawes of Rock Island, Ill., for the head office.

The convention then proceeded with the presentation of reports. The report of Head Consul Talbot was devoted to a review of the work during the biennial term. Speaking of the centralization of the work of the medical department, he favored the discontinuation of state head physicians, all applications to go to the supreme medical directors at the head office. The expenses of his office for 1903 were \$11,683 and for 1904 \$24,819, total \$36,503. Appeals on behalf of 210 distressed members were received and the contributions were \$21,949. He spoke in favor of the foresters' department and recommended the amendment of the by-laws prohibiting local camps or foresters' teams from holding Sunday picnics or excursions under the auspices of the society, with a penalty, for disobedience of expulsion or revocation of charter. He commended the order of Junior Woodmen as beneficial to the boys. He favored an interval of three or four years between the meetings of the head camp, in the interests of economy.

During the biennial the new members numbered 121,639, and 1,482 new camps were chartered. The society, he said, now includes 14.53 per cent of all those eligible for membership in the states in which it is organized. The report of Head Clerk C. W. Hawes contained the following: The insurance in force at the close of the biennial term aggregated \$1,136,678,500. The society paid 7,681 death claims, amounting to \$12,663,603, as against 5,800 claims amounting to \$10,736,435 during the term preceding. The receipts of the benefit fund totaled \$12,567,703 as against \$7,570,988 during the preceding biennial. The balance at the close of the term was \$897,587. The receipts of the general fund were \$1,674,299 as against \$1,503,011 during the preceding term, the balance being \$289,994. The lapsed (beneficial) membership during the two years was \$117,415 and the lapsed insurance \$176,462,500.

The average per capita payment to the benefit fund was \$1.265 as against 80 cents during the term preceding. The increase was due to the new rates becoming effective January 1, 1904, when the rates of the members were increased from 15 per cent to 75 per cent at various ages. There were 2,991 deaths from accident and 804 deaths from suicide. Of the latter 248 were farmers—30.85 per cent of the total number. The farmers also led in accidental deaths—885.

A GERMAN RIOT.

Serious Collision Between Police and People Caused by Eviction of a Tenant—Twenty Persons Injured

Cologne, Germany, June 21.—A serious collision occurred last night between the police and the populace of Chlodwiesplatz. The police received orders for the eviction of a tenant who was behind in the payment of rent for his house. An enraged crowd numbering thousands assembled and some of the tenants of the neighboring houses threw stones and other objects at the police from the windows, while the crowd in front of the delinquent tenant's residence made riotous demonstrations. Finally the police drew their swords and dispersed the crowd but not before the rioting had lasted six hours. About twenty persons were wounded, two of them being severely injured.

ADA EVENING NEWS.

OFFICIAL CITY PAPER.

OTIS B. WEAVER & CO., PUBLISHERS
M. D. STEINER, BUSINESS MANAGER

Entered as second-class matter March 26, 1904, at the postoffice at Ada, Indian Territory, under the Act of Congress, March 3, 1879.

It is not many days until the big reunion. Are you thinking about it?

ADA must put on her best dress during the old soldiers reunion to be held here next month.

ADA is a good town without sidewalks, but, Oh, how much better would she be with them?

THERE are hundreds of town in the southwest that are not half so good as ours that have sidewalks.

IT is a noticeable fact that more murderers, bank robbers, boot-loggers and criminals generally are being convicted than formerly, and that the courts are pronouncing heavier sentences.

"I WONDER what the Japs look like?" said the mermaid as she slowly swam in and out of the great, gapping holes in the Russian battleships as they lay scattered at the bottom of the sea.

WHEN a man dresses in the morning, he puts on eleven articles of clothing, counting his shoes and stockings. A boy puts on seven different articles. When a woman dresses to come down town, she puts on seventy-three different articles.

IF THE railroad committee has not called on you, do not feel slighted, but hunt them up and subscribe to the bonus as your ability will admit and you will certainly feel the consciousness of duty done and the possession within you of good citizenship qualities, which otherwise would be impossible—that is if you have property interests in this town.

FIVE HUNDRED delegates will go from Indian Territory to Oklahoma City July 12 to attend the single statehood convention. On July 8 twenty of these delegates will be chosen at Ada. Let us select good men for this duty—men regardless of political preference, and men who will represent us in a manner that will reflect credit upon Ada and Curtis county.

THIS is one on Jon. Rinard. "Say, Mr. Lawyer, how much will you give to the Canadian Valley & Western railroad bonus?" says John. "How much should I give?" replied the one assailed by this notorious solicitor. "Well since you own only one residence and lot in the town, I judge you should give \$50.00," replied Rinard. The lawyer took the paper and with a dignified air wrote his name and a measly \$250.00 opposite his cognomen.

THE man who has not confidence in himself will be slow to inspire the confidence of others. The man who advertises proclaims to all the world his own confidence in what he has to offer to the public. He believes he has what the public wants. He has enough confidence in the bargains he offers to make a small investment in publicity, in communicating to prospective purchasers the quality of the bargains with which he hopes to attract them. The man who fails to advertise displays timidity, and by inference confesses to the public that he is not so sure he really has anything that the public desires. It requires no long argument to prove that the timid man's place in the modern struggle for business is at the bottom.

Francis Happenings

Doings and Goings of Our Neighbors on the North

Monday was a red letter day in Francis—for the "pants pressers."

Our clever postmaster and near neighbor is having some substantial improvements made this week in the shape of a yard fence.

Strew some of your roses in the paths of the living, instead of reserving them all for the graves of the dead.

The editor of the Headlight feels very much encouraged from the approval with which our first issue was received.

Everybody come to the W. O. W. picnic and barbecue at Francis July 25. A royal time is expected.

Dr. Richey is the busiest man in town. He is making a complete renovation of his new quarters and adding wonderfully to the appearance of his drug store.

If one pleases you in his endeavors, be grateful enough to acknowledge it. By so doing you lighten his burden and spur him on to greater effort.

Don't forget the district convention at Ada, on the 24th of July. We want our full quota of delegates sent to the Territorial convention on the 12th. Statehood is what we want.

The ground privileges for the W. O. W. picnic at Francis July the 25th were sold today, and brought an aggregate of \$105.50. Messrs. Lilley Bros. and Watson Bros. & Co., were the principal purchasers—and David Patterson.

Engine No. 555, which was in the wreck of No. 10 near Sasakwa several days ago, has been replaced on track and will be able to go to Sherman for repairs.

Mr. Hochstrasser of the Harvey House has returned from an outing of several days in Texas, and reports crop prospects in Southern Texas not very flattering. The web worm has made havoc of many cotton fields, and by the time the boll weevil has their say, there will be but little left for the farmer.

We were all made to rejoice Monday evening by receiving a good rain, which was badly needed. Many were wearing long faces on account of the dry weather. Even our merchants were feeling "blue," but now they can smile and realize the fact that "God doeth all things well."

Old Glory in Crepe.

"The citizens of Weleetka, I. T.," says the Muskogee Phoenix, "are making preparations to hold a great celebration on July Fourth, and as they feel very keenly the great injustice that is being perpetrated on them by Secretary Hitchcock in his awkward administration of territorial affairs and from which they cannot secure relief, it causes the citizens to feel that they are not accorded the protection that is fitly symbolized by the full unfurling of Old Glory, therefore they have decided that on the natal day the flag shall fly at half mast."

FEDERAL GRAND JURY.

Important Matters to Come Before Body at Ardmore.

Ardmore, I. T., June 21.—The Federal Grand Jury convened here today and United States Judge Hosea Townsend in his charge to it stated that he understood that there were several important matters to come before the body for investigation.

Gov. Johnson and prominent tribal officials have been summoned to appear before the Grand Jury and sensational developments are expected. Only recently United States Indian Inspector Jenkins of Washington made a special investigation in the Chickasaw Nation.

USED A DIVINING ROD.

Oil Well Near Davis Was Located in a Peculiar Manner.

Davis, I. T., June 21.—Messrs. Jolly & Hahn, oil well contractors and drillers, while drilling Saturday night near the Santa Fe depot here, at a depth of 741 feet struck a very nice oil sand. The sand was about 27 feet deep and considerable oil is coming into the well. The oil is a dark green, said to be high-grade refining oil. Their contract calls for a depth of 1,050 feet, and they are going down with the hope of securing still another oil strata. The citizens of Davis are not excited over the find, because they have felt all the time that oil would be found here when sufficient depth was reached.

Jolly & Hahn drilled another well some time ago on Rock Creek, about six miles from this place, and struck a great flow of artesian water. The water was found at 460 feet and is still gushing out at the rate of 200,000 gallons per day. The city of Davis will pipe this artesian water into town when piping can be secured.

The oil well being drilled here was located by a noted California oil expert some weeks ago with a divining rod or needle, and the prediction was made that oil in paying quantities would be found at less than 1,600 feet from the surface. Drilling will proceed day and night until the contract is completed, unless oil or gas is reached under this depth.

Made a Good Showing.

South McAlester, I. T., June 21.—Mrs. H. S. Keller, wife of Dr. H. S. Keller, of this city, who is visiting relatives in Louisville, Ky., has the following to say in regard to the Indian Territory delegation of confederate veterans who took part in the big parade at Louisville several days ago:

"The Indian Territory veterans made a fine showing. The sponsors, Messrs. Cabell and Fisher, were dressed in white and carried white parasols and rode in carriages. They never looked prettier. Many were of the opinion that the Indian Territory section made the best showing, and there were thousands in line from most every state in the union."

Say Geronimo Was Decoyed.

Lawton, Ok., June 21.—The military authorities in Fort Sill deny having given permission to Geronimo to leave the fort to attend the Bliss exhibit on Sunday. Geronimo, it is asserted, was decoyed away from the fort. He refuses since his return to talk of his trip.

Pay \$10 for Penny Burials.

Joplin, Mo., June 21.—As the result of an undertakers' war over the county contracts to bury the pauper dead of the Joplin mining district, a Joplin undertaking company has offered to do the work for one cent per corpse and, moreover, to pay the county a bonus of \$10 per case for the privilege. The bid was accepted and the contract awarded at that rate by the county court. Competitive undertakers bid respectively \$9.50 and \$8.49.

STANDARD AGAIN IN KANSAS

Notice Given That Heavy Oil Will
Be Taken at Twenty-Five
Cents Per Barrel.

Independence, Kan., June 21.—J. E. O'Neil, who was last Thursday elected vice-president and general manager of the Prairie Oil and Gas company, Monday announced that the Standard Oil company has decided to resume work in the Kansas field, and will at once complete its storage tanks in Kansas construction of which was discontinued when the last legislature was in session. At that time producers of oil under 30 gravity were notified that no more heavy oil would be taken and pipe lines to such properties were disconnected.

Mr. O'Neil's order is to the effect that as soon as tankage and other arrangements can be made it is proposed by the prairie Oil and Gas company to buy all oil between 22 and 30 gravity, and so long as present conditions exist to pay 25 cents a barrel for it. Mr. O'Neil says his company is not anxious for this business, but they believe there are some producers who are suffering by reason of having found no market for their oil and if it is the desire of producers of heavy oil to dispose of their product at this price applications will be taken from them, and as fast as the connection lines can be relaid and tankage provided for this quality of oil the company will find a market for it. But Mr. O'Neil expressly stated the company does not expect to connect its pipelines with any wells which may hereafter be drilled in the heavy gravity district so long as the present conditions with regard to fuel oil exist.
